

SOCIETY MEETINGS

The USRFR offers a variety of opportunities for referees (including trial members) and assessors to meet throughout the province. These meetings play a vital role in referee development and assist members operating at all levels, in ensuring they remain up to date with current directives from World Rugby, IRFU and USRFR. Additionally, they provide an excellent opportunity for support and a forum to share experiences and discussion on developing trends within the game in Ulster and further afield. They are open to any person with an interest in refereeing.

Society meetings commence in August with the Annual Conference, and end in March. Typically, area meetings run once per month, with a full society meeting supplementing these several times per year. Further details regarding specific meeting can be found below, please contact your area convener for further information:
